## NEEKOO ROOIBOS CHAI *The journey to inner peace*

“I go through a bag of this *every week!*” said one Halifax woman with a big smile. “We just *love* to make Neekoo Chai before meditation,” said another woman with a sparkle in her eyes, “the aroma creates such a blissful atmosphere.”

The spices in Neekoo Chai have a wide appeal. The ingredients in Neekoo Chai are being widely sold for **weight loss, blood sugar balancing, improved circulation, cancer prevention, and more.**

We made this proprietary blend because it *tastes* good. Using Rooibos means that everyone can drink it, from toddlers to seniors, at any time of day or night, because it is naturally caffeine-free and soothing.

Neekoo Rooibos Chai has such an uplifting aroma that you should make it a part of your spiritual health program.

*“Meditation is the key for opening the doors of mysteries.”*

Visit [www.neekoo.com](http://www.neekoo.com) for more information.

## Neekoo Green Tea

*By far the best-tasting Green Tea*

Neekoo Green Tea is from the high mountain regions of Ceylon, and uses only the top two leaves and the bud of the tea plant (*Camellia sinensis*). These young and larger unbroken leaves deliver far less caffeine and tannic acid than smaller broken leaves. Our Green Tea is rich in Polyphenols.

*High elevation tea tastes better and is more nutritious due to its growing conditions.*

## Neekoo Royal Blend

*Rich Colour, Uplifting Aroma Superb Taste*

Neekoo Royal Blend Tea is created with black teas from different high elevation (4000ft and up) plantations in Sri Lanka. We look for a rich burgundy colour, unique aroma and a taste that deserves a second cup. It doesn't become Neekoo Tea unless it impresses every one of our team of tea tasters.

*High elevation tea tastes better and is more nutritious due to its growing conditions.*

## Rooibos Chai

*Pure Rooibos Tea from the beautiful Cederberg Valley*

Rooibos Chai is a blend of the renowned rooibos tea with the best chai masala you could possibly imagine. One can write a book just on the benefits of this robust, aromatic and absolutely delicious tea. Every ingredient has centuries of culinary as well as medicinal use.

## Rooibos Original

*Pure Rooibos Tea from the beautiful Cederberg Valley*

Rooibos (*Aspalathus Linearis*) is from South Africa and is Afrikaans for "red bush". It has a rich burgundy colour with a sweet aroma. Rooibos is naturally caffeine-free. It is calming but not sedating, and is also a good source of antioxidants and an excellent evening drink. Rooibos tastes great with milk or soy milk. Rooibos doesn't get "old" the way coffee and tea do.

## Rooibos Honey/ Chamomile

*Rooibos with Chamomile Flowers and the delicious smell of Honey*

(unsweetened)

Rooibos Honey/Chamomile has the sweet aroma of honey and the relaxing and digestive benefits of chamomile.

It is delicious, try it!

## Rooibos Earl Grey

*Rooibos with Bergamot flavouring for the Earl Grey lovers.*

Rooibos Earl Grey has all the benefits of Rooibos with the added Bergamot essence to resemble Earl Grey tea.

Tastes great with lemon or lime!

Masterfully Blended 🌿 Sustainably Developed 🌿 Earth Friendly 🌿 Fairly Treated Plantation Workers

# Neekoo, like the sun, rises from the east too!

Tea is the world's most popular hot drink! For good reason too; since it tastes good, smells good and is good for you too!

Neekoo Teas are selected from the world's best, then lovingly and carefully blended and packaged just for you. Neekoo means "praiseworthy". Only if a tea is truly praiseworthy, then it becomes Neekoo and worthy of you.
